

A RESOLUTION OF THE SOUTH CAROLINA REPUBLICAN PARTY

AFFIRMING BODILY AUTONOMY AND OPPOSING FORCED VACCINATIONS

Whereas, The Declaration of Independence reads, in part, "We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. --That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed"; and

Whereas, "life" is a God-given right that exists from the moment of fertilization forward; and

Whereas, the preamble of The Constitution of the United States proclaims, "We the People of the United States, in Order to form a more perfect Union, establish Justice, ensure domestic Tranquility, provide for the common defense, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity, do ordain and establish this Constitution for the United States of America"; and

Whereas, we have been given individual rights by our Creator, not collective rights as a group; and

Whereas, certain entities -- whether elected officials, businesses, educational institutions, or others -- have pressed people to undergo medical interventions including but not limited to testing, wearing face masks, and receiving in their body injections of unknown and potentially life-threatening substances; and

Whereas, it is a violation of bodily autonomy and one's pursuit of happiness to require medical interventions with which a person is not comfortable; and

Whereas, there are numerous laws on the books making coercion a crime.

Therefore be it resolved, that the South Carolina Republican Party affirms individual rights, bodily autonomy, and the right of people to accept or reject medical interventions after having received complete informed consent from a knowledgeable healthcare provider; and

Be it further resolved that, the South Carolina Republican Party expressly denounces vaccine mandates, forced vaccinations, forced bio-chipping or microchipping of humans, and forced testing of humans for the purpose of entering government buildings or maintaining employment; and,

Be it further resolved, that the South Carolina Republican Party calls for the members of the Legislative Delegation to enact legislation to this effect.
